

TREIO aims to develop and pilot an all-round cross-border training on European Investigation Order (EIO) implementation to foster the use and successful exchange of EIO forms and evidences across EU. It will provide for a Reference Training Framework tailoring the content to cross-border specifics - investigative measures, cooperation, procedures, safeguards, data protection compliance, technical aspects of the EIO exchange; and providing video tutorials on the and the use of the e-Evidence Exchange Digital System, developed by EC.

**As a result,
TREIO will provide for**

- Standardized and uniform training curricular and materials with guidelines on their adoption and customization to the different jurisdictions and legal specifics and procedures taking place on national level
- e-CODEX testing environment for real-time simulation of an EIO form and evidence exchange
- Tutorial and video materials on the use of the e-Evidence Digital Exchange System
- Cross-border training for 120 trainers to teach and promote EU-wide EIO implementation
- Online all-round EIO training in 12 official EU languages for a minimum of 1000 practitioners
- Training Toolkit and guidelines for all-round EIO training adoption across EU
- Action Plan for future actions on EIO training for all EU MSs

Timeline

To achieve this, TREIO will develop a blended training methodology and content with a complete EIO coverage going from the business aspects to the technical ones and focusing on the electronic exchange of EIOs and evidences using information and communication technologies.

The project targets 12 Member States to pilot the training framework - Austria, Bulgaria, Croatia, Czech Republic, France, Germany, Greece, Italy, Lithuania, Luxembourg, Spain, and Portugal; and will explore opportunities to expand its activities across Europe.

TREIO will support the Member States by

- providing a training framework and online environment for your practitioners to learn the various **legal, technical, and organizational aspects** of preparing and exchanging EIO forms and evidence,
- delivering a **user-friendly e-CODEX testing environment**,
- enhancing **e-Evidence Exchange Digital System's national deployment strategies**, and
- developing a Training Toolkit for all-round EIO **training adoption on national level**.

TREIO - TRaining on European Investigation Order

Grant agreement No. 882068

Funded by the European Union's Justice Programme 2014-2020, under Call for proposals for action grants to support transnational projects on judicial training covering civil law, criminal law or fundamental rights, Call ID JUST-JTRA-EJTR-AG-2019
