

# EUROPEAN JUDICIAL NETWORK (EJN)

Fostering judicial cooperation  
in criminal matters

'Harmonization, Transferability, Support Tools: Reflections on Digitalization of Judicial Cooperation. The Experience of TREIO Project and Beyond' Conference

Brussels, 24-25 January 2024

© EJN Secretariat

# Digital Harmonization vs. National Legal Frameworks' Diversity

- Are the legal instruments harmonized? EIO vs EAW, EIO vs MLA, EIO vs Regulation 2018/1805 on freezing and confiscation?
- Videoconferencing as example of different approach
- In practice, questions still remain
- Mutual trust, consultations and common workshops – key to success?

# Role of the EJM

- Consult the EJM Contact Points in the problematic situations
- Consultations on the double criminality, which instruments to use, etc.
- EJM website is a necessary source of information for practitioners

# The future and the development of e-EDES platform

- There should be the exceptions from the mandatory use of the e-EDES platform
- The possibility to use e-EDES as a platform for the videoconference could help to avoid the incompatibility issues
- It would be useful to elaborate the integration of the EJM resources into the e-EDES platform (for example, more advanced connection to the EJM Atlas; indicate the EJM Contact Points for the competent authorities)
- Broadening the scope of the legal instruments that can be transmitted via e-EDES would improve the coordination

**Thank you for the attention!**
